

Oogway

IQE Activities Workflow (Pain Points)

Here is Oogway...

Oogway shows you a path of harmony and focus to get the Localization testing done. It makes your path of success smoother and easier by minimizing your physical efforts and making you capable to improvise, adapt and overcome any challenges.

Oogway – Project Life Cycle

Setting Up the Project

Maintain Project Versions

- Create a new Project Version
- Copy all product Data from other version
- View Project Phases and Test Strategy
- View consolidated Locales Vs. Platforms Matrix
- Document Features, Project Links and Team

Maintain Product Master Data

- Define Locales and Platforms
- Define Sprints
- Define Language Groups and Associations

Maintain Project Phases

- Create new phase or testing round
- Copy all information from other phase
- Define Coverage's or testing scope
- View consolidated locales Vs. Platform Matrix

Locale Vs. Platform Matrix

- Define OT Matrix for the coverage
- Create Test Suite in TS for execution
- Update Manually if not maintained in Test Studio
- Filters to define / view matrix
- Link to Directly access Test Suites in Test Studio

Project Wind-Up/Closure

- Define GM Build info
- Document Post- Mortem, Learning's , Best Practices
- Mark closure of project

Status Tracking

Locale Vs. Platform Matrix

- Update SID information manually
- Refresh SID information from TS
- If SID not applicable, update information manually
- Filters to update matrix quickly
- Link to directly access SID in test studio

Submit Weekly Status

- Submit Weekly status of test cases executed, or bugs regressed
- Submit Total Effort Details
- Highlight Risks and accomplishments

Consolidated Status Reports

- View Consolidated Status reports
- Weekly, Monthly, Overall reports available
- Filters available for consolidations
- Track Productivity for test cases execution

Defining Users and Roles

Maintain User and Roles

- Create new Users
- Assign roles to these Users as per your access rights
- Assign projects to any user.

Other Salient Features

- Unicode enabled application
- Update your profile and set preferences
- Provision to share progress with Product Team and other stakeholders
- Capture Daily Efforts and View compilation reports
- Customizable WSR parameters based on Product requirements
- Maintain Vendor Holidays List
- 360 degree feedback mechanism
